1. This action is in response to the amendment filed on Aug 10, 2004.
2. Claims 1-32 are allowed.
3. Objection to drawings (1-4) is still pending.
4. The rejections under 35 U.S.C. 112 to claims 1, 6, 7, 23, 24, 25, and 26 are withdrawn in view of applicant's amendment.

Reasons for Allowance

5. The following is an examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fail to teach, in combination with the other claimed limitations, specifically claims 1, 6, 7, 23, 24, 25, and 26 are directed to a method of generating assembly code to aid in stack unwinding of a memory stack, the method comprising: *obtaining source code line; generating assembly code including stack unwind assembler directive for the source code line; enabling the assembler to generate the at least one encoded data section to be used during stack unwinding, wherein each stack unwind assembler directive is a human readable indicator indicating to the assembler that associated sub directives are related to stack unwinding, wherein the stack unwind assembler directive does not specify a function to be performed during stack unwinding.*

Therefore, the claimed invention improves the generation of assembly code to perform stack unwinding process by having a human readable indicator to the assembler related to stack unwinding during the compilation of a program.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
